

The words in the list on the left-hand side of the page are hidden within the grid on the right-hand side. The words may be forward, backward, up, down, or diagonal. They are always in a straight line and never skip letters. You may use some letters more than once. The grid contains names of people, places, and things associated with the Grand Central Air Terminal.

Circle the first and last letter of each word within the grid; join them with a straight line and cross it off the word-list. If you get stuck, you can "cheat" and open up the key file!

Good luck!
